

Environmental Policy Statement.

Pozzoni Architecture Limited is a leading national architectural practice offering a wide range of architectural services.

We recognise that our designs and our business activities have an impact on the environment. We also recognise our responsibility to mitigate this impact and protect the environment for future generations.

Our environmental management system has been certified to ISO 14001:2015.
To minimise the impact of our activities we will:

- Design energy efficient sustainable and site responsive solutions
- Consider the environment as an essential factor when specifying building products and evaluating projects, operations, methods and procedures
- Commit to preventing pollution
- Comply with all legal and other requirements relevant to our environmental aspects
- Ensure that our business activities minimise consumption of energy and materials through developing objectives and targets
- We will work to adopt and implement standards of good practice in reducing waste, recycling more and increasing the use of recycled and recovered materials
- Extend the Practice's environmental knowledge through training and continuing professional development
- Communicate our environmental policy to our employees, clients, and suppliers
- Commit to continual environmental improvement

This policy has been reviewed and endorsed by the directors of Pozzoni and the responsibility for management and implementation is at director level. A Sustainability Manager has been appointed and is responsible for the day to day implementation of this environmental policy.

The policy is made known to all of Pozzoni's employees and is subject to a periodic review to ensure it continues to meet our environmental aspirations.
